RestFul API

## SELECTED PROJECTS

### Generative AI

Developed a Generative AI web application using React.js, Express.js, and MongoDB, featuring JWT authentication for secure access. Integrated Gemini API and custom RESTful APIs for AI-driven content generation. The platform is fully responsive, ensuring seamless functionality across devices, and leverages modern authentication and API practices for scalability and user experience.

### PDF CONVERTER

A PDF converter, built with HTML, CSS, JavaScript, MySQL, and Flask, offers functionality to convert PDF to DOCX, merge multiple PDFs, and add password protection. The Flask backend handles the processing, while MySQL manages user data and conversion history.

### MULTI-LANGUAGE TRANSLATOR

A multilingual translator website, developed using HTML, CSS, JavaScript, Django, and MySQL, allows users to translate text between different languages. The site features a user-friendly interface for inputting text, selecting languages, and displaying translations.

### PORTFOLIO WEBSITE

Developed dynamic web applications using html, css, javascript showcasing my achievements and progress, reflecting my dedication and proficiency in creating dynamic web applications. and programming

## EXPERIENCE

### FRESHER

**Aspiring Full Stack Developer** with a strong foundation in both front-end and back-end technologies. Proficient in HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL, with hands-on experience in building efficient and user-friendly web applications. Passionate about contributing to innovative projects in a dynamic development environment and eager to learn and grow with new challenges.
